TESTIMONIAL

A communicative, interested and competent professional.

She was recently invited to support the sales experience project, and was highly praised for her commitment and dedication to this assistance.

Quickly understood how the processes and procedures worked after being allocated to the sales experience team.

It's always good work with people like Laura. I had the pleasure of working with her in Avanade, we developed some projects together.

Objective was always a characteristic of her work, and collaboration as well. No doubt, is wonderful have professionals like Laura to work with.
